Power Castoferrinickel Cast Iron Welding Electrode

MECHANICAL PROPERTIES OF ALL WELD METAL :

Hardness (3 layer)

| |
|---------|
| BHN |
| 150-200 |

KEY FEATURES :

- Ni-Fe type weld deposit
- Controlled penetration ensure good bonding
- Low heat input electrode

APPLICATIONS :

- Special electrode for repair welding of nodular & malleable cast iron
- Gear boxes, Gear teeth, Valve body

L-Zee Electrode

An ISO 9001 : 2008 Certified Company
